

WD8C

Controller for Bollard system

Access Control System

Fingerprint Recognition

Drop-arm

Bi-directional

Mechanical Unlocking

WD8C is controller box a high-quality is automatic bollard which is used widely to protect security areas from vehicle intrusion. It is an ideal solution for entrance

Features

- Remote control distance: 100-50m (according to the environment)
- The display text of the control box is adjustable (rise, fall, start, time control adjustment)
- Display text with both Chinese and English
- PLC built-in encryption system
- Display text LCD display, Chinese menu, precision start time setting

Specifications

System control:	PLC controller
Rated voltage:	AC220V 50Hz
System power (W):	350W
Rise time:	≤1-4S
Descent time:	≤1-4S
Operating temperature:	(-35°C~75°C)
Size:	200*400*500mm
Weight:	15KG
Power supply:	380V(Control voltage 24V)
Control solenoid valve:	24V
Static state:	No current / off state
Remote control range:	50M100-M
Connecting number for bollards:	8 pcs/ 1set
