

DATASHEET THERMAL PAPER

Thermal Paper Rolls are high-quality thermal paper rolls specifically designed for ATM machines, cash dispensers, and self-service banking terminals. Manufactured using premium thermal paper with a smooth surface and high sensitivity, these rolls provide sharp, clear, and long-lasting printing without the need for ink or ribbons. They offer excellent image stability, dust-free performance, and reliable feeding, making them ideal for banks, financial institutions, and retail businesses.

Key Features

- Standard roll size: 80 mm × 120 mm, 60 gsm
- High-quality thermal paper with a smooth printing surface
- Compatible with ATM machines and self-service banking terminals
- High thermal sensitivity for clear receipt printing
- Excellent image stability and long-lasting print quality
- Jam-free performance with smooth paper feeding
- Available in customized roll lengths and core sizes
